

Adult Education EDA PROJECT

The EDA - Adult Education, is a tool that allows all citizens through the expansion of professional opportunities, a second chance training in their schooling, work, social, cultural and family life. Lifelong learning throughout the lifespan allows any adult to begin a path of growth in terms of knowledge, competence and professional qualifications giving full development to their potential.

Educational opportunities available for adults are many and varied, depending on the needs and are increasingly widening gradually the system. EDA is being structured on the territory.

One of the key tools of EDA consists of the CTP - Local Permanent Centres

In the city of Naples are operating at the schools listed below, n. 17 CTP at which you play both courses of formal education (middle school) and short courses in various subjects such as computer science, foreign language, Italian for foreigners, etc.. For short courses is released, usually, a certificate valid not only for the acquisition of skills but also as a credit.

As for short courses, are important clarifications:

* Short Course on "information". For this course some CTP shall issue, after the course, the "European Computer Driving License (ECDL)

* "Paths integrated schools. This course allows people (mainly 18-25) who have dropped out of high school, to recover the credits useful in rehabilitating the evening course to obtain the title above.
